

Toolstring Clamp

The **BDWS Toolstring Clamp** is designed and manufactured to locate around standard toolstring fishing necks.

The supporting arms rest on the box of the wireline valve or riser to allow extended toolstring make-up.

Toolstring Diameter	Fish Neck
1.250"	1.187"
1.500"	1.375"
1.875" - 2.125"	1.750"
2.500"	2.312"
