

Hydraulic Tool Catcher

The **BDWS Hydraulic Tool Catcher** is designed to catch the rope socket of a wireline toolstring. It prevents toolstring from accidentally pulling out of the rope socket and falling into the well.

The Hydraulic Tool Catcher can be designed with special dogs that can be engaged with a wide range of rope socket sizes.

The Hydraulic Tool Catcher is manufactured with various sizes of Quick Unions, pressure rating up to 20,000 psi working pressure and for Standard and H2S services.

FEATURES
